

CLAIRE ENKANINAN LOW

Lives and works on Cammeraygal land, Eora Nation (Sydney), Australia

PROFILE

Claire's art practice primarily involves acrylic paintings on wood board or waste materials and abandoned objects; sustainability is a focus. Realistic renderings are juxtaposed with a surrealist sensibility and are often based on natural history and entomology. She is also influenced by darkness and the macabre – as well as her cultural background as an Asian Australian.
